        Steps 3-7: Connect Laptops and Switcher to Projector

        Steps 8-10: Power and Test the System

Exercise
Section Test
Connect a Laptop to Two Projectors
What Do I Need for this Setup?
Steps 1-3: Power and Laptop Connections
Steps 4-5: Laptop to DA Connections
Steps 6-7: DA to Projector Connections
Steps 8-10: Power and Test System
Step 11: Tape-down and Skirting
Exercise
Section Test
Connect a Video Source to a Projector
What Do I Need for this Setup?
Steps 1-3: Power and Video Connections
Steps 4-6: Audio Connections
Steps 7-10: Test the System
Exercise
Section Test

Computer Settings
Changing Computer Settings
Computer Settings Overview
Display Problems
Steps 1-2: Display Properties
Steps 3-6: Settings and Resolution
Power Saving
Screen Saver
Toggling the Computer Display Output
Function Keys
Tips and Tricks
Section Test

Troubleshooting
Troubleshooting Procedures
Troubleshooting Overview
Symptom Recognition and Elaboration
List and Localize Faulty Function
Analysis
There Is No Sound
Next Steps to Solving No Sound
Troubleshooting 1/8 inch or Submini Connectors
Disc Will Not Play
Wired Microphone Will Not Work
Wireless Microphone Will Not Work
Avoiding Feedback
Reducing Feedback

Cannot Connect to the Internet
Projector Keeps Turning Off
Projector Maintenance
Section Test
